

Introduction

PMO-SRM is a social enterprise and part of PMO Excellence, our specialized consultancy firm in project management. Together, we offer a complete range of security services that goes beyond that of traditional trainings. Our comprehensive support encompasses Operational Guidance, Security Risk Assessments and Audits, Crisis Security Management, Post-Incident Analysis, After Action Reviews, and full cycle security policy development.

With over thirty years of operational, managerial, and training experience. PMO's footprint spans across the globe, we have successfully conducted security trainings across countries such as Lebanon, Nigeria, Ethiopia, Tunisia, Cambodia, Myanmar, India, Afghanistan, Yemen, and Ukraine.

Course Content

Our modules combine classroom lectures with interactive components to enhance participants' understanding, identification, and ongoing awareness of the diverse risks they may encounter. This includes gaining insights into affected regions, involved parties, underlying causes, and potential outcomes.

Modules

- First Aid for Severe Trauma in Hostile Environments (Certified!) ● Contextual and Cultural Awareness ● Armed conflict and Terrorism (Armed Attack, attack by air, small arms fire, shelling, concealment and protection, myths and facts about CBRN) ● Civil Unrest ● International Humanitarian Law and the Humanitarian Principles (IHL: Dealing with combatants, visibility, distinction and compliance) ● Residence Safety ● Driving & Transport Safety ● Driving in a hostile Environment (Checkpoints, ambush, road travel planning, movement procedures) ● Dealing with Armed State and Non-State Actors ● Travel & Personal Planning Coping with Capture (Arrest, detention, kidnap hostage taking) ● Communication and Negotiation ● Mines & Explosives (UXO) ● Safeguarding ● Stress Management

Over the past 12 months alone, PMO-SRM has successfully trained 250 employees from 16 organizations, spanning over 20+ trainings, across Poland and Ukraine. Our training facilities offer a safe and secluded environment to conduct scenarios, which range from reacting to high-risk security events, to medical competency workshops that are certified by an international provider.

SAFETY & SECURITY SHOULD STAND AS NON_NEGOTIABLE PRIORITIES FOR ORGANIZATIONS OPERATING IN CHALLENGING ENVIRONMENTS!
