

Hostile Environment Awareness Training Designed and Guided with Humanitarian Principles at Heart!

PMO is your Partner in Humanitarian Security with over 30 years of operational, managerial, and training experience, PMO has established a global footprint in supporting humanitarian organizations.

We have successfully conducted security trainings in diverse and challenging contexts, including Lebanon, Nigeria, Ethiopia, Tunisia, Syria, Cambodia, Myanmar, India, Afghanistan, Yemen, and Ukraine.

**Upcoming training in Poland:
18-20 March 2025
€1550 for 3 days, all-inclusive**

Humanitarian Security Training that is Practical, Personal, and Human.

At PMO, humanitarian principles are at the heart of everything we do. We don't follow a bootcamp approach. Instead, we recognize that every participant is unique and tailor our trainings to everyone's abilities and needs. Our focus is on building resilience, ensuring participants can continue their work in challenging environments.

International Humanitarian Law and the NGO community

When we discuss:

- The Geneva Convention,
- The use of visibilities,
- No weapons policy,
- Armed escorts,
- Guards,
- And our distance to military objectives,

We are talking about IHL.

Why are you here? Duty of Prevention

Duty of Care Duty to Intervene

Duty of Information

Duty of Loyalty **INFORMED CONSENT**

GROUP EXERCISE

What can be the consequences for your organisation?

How will you respond? (from a strategic point of view)

ARMED CONFLICT

Training Highlights

Armed Conflict

Through classroom sessions and practical exercises, you'll learn how to operate safely in environments experiencing heavy armed conflict.

Mine Awareness

Awareness of mines and UXO's. Understanding on how to act when suspecting an unexploded ordnance poses a threat. Simple tricks to avoid finding one's self in a minefield.

Medical

Certified training with realistic medical scenarios. Learn how to apply a tourniquet, understand basic human anatomy, and respond effectively in critical situations

Concealment

Learn what is safe to do during an attack, the difference between soft and hard cover, and debunk some more "Hollywood myths"

Driving in Hostile Environments

Learn how to use a vehicle for cover, keep it moving under fire, and avoid critical mistakes in high-risk situations.

Context Specific Threats
